Keep TOMS the safest it can be! If you see or hear something **troubling**, let your teacher/administration know!

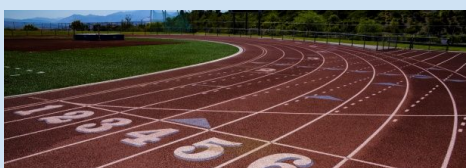

In science news, I always used to get small shocks when touching metal objects, but it recently stopped. Needless to say, I'm ex-static.

COVID vaccines are being released more and more to the public each day but we must remember to continue avoiding COVID the best we can. Wear your masks properly, wash your hands often, use sanitizer, keep an appropriate distance and avoid touching other people and objects around the school when possible, especially at lunch...right before we eat..

You can't go back and change the beginning, but you can start where you are and change the ending.

— C. S. Lewis —

Students, this year has been challenging to say the least...but we have begun our last quarter of the year and while the year is a little longer, it is important that we finish strong. Get your assignments in on time, make time to study for your tests and complete major assignments to the best of your ability.

Attention Track & Field Athletes: This week is the last week for track. If you are a top finisher or won an event, you **MUST** be present to win your t-shirt or prize. We will have final races if needed and then our Award Ceremony. Check Google Classroom to see where you stand and who the leaders are!
